Medicaid Management Reports

SECOND QUARTER, FY 1976

Medical Services Administration

Social and Rehabilitation Service

U.S. Department of Health, Education, and Welfare

ACKNOWLEDGEMENTS

The Medicaid Management Reports have been designed and prepared for the Medical Services Administration by TEAM Associates under Contract No. SRS-500-75-0033.

The publication of these reports was made possible with the assistance of many staff members at the Social and Rehabilitation Service and the Medical Services Administration. Those persons who played key roles in the data acquisition phases include: Mr. Carl Couchoud, Mr. Allan Dorris, Mrs. Henrietta Du Val, Mrs. Mildred Reed, Mrs. Jan Sigurdson, Mr. Bernard Silverstein, Mr. Frank Street, and Mr. Bert Zanck.

Carl Allen, Tom Falloon, and Richard Roll, of the Medical Services Administration, provided the direction and assistance that made the Medicaid Management Reports a reality.

INTRODUCTION

These Medicaid Management Reports summarize and compare State Medicaid program activities. They are prepared quarterly from data submitted by the individual states. The Reports are the most comprehensive published collection of current Medicaid data.

Objectives

Three objectives are met by the Medicaid Management Reports. They provide the Medical Services Administration with both national patterns and individual state trends that are used to focus program monitoring activities on those states where monitoring can be most productive. They fulfill part of MSA's Congressional mandate to summarize program statistics and make them available to Congress, other Federal agencies, and others who seek knowledge about the program.

It is hoped that publication in this form will result in an improvement in the quality of the data submitted by the States. Quality enhancements that can thus be expected include: more timely submittal of reports; more complete reports; more accuracy in preparing estimates of future program costs; and reconciliation between fiscal and statistical reports.

Types of Data

To achieve these objectives, eight types of data are summarized in the reports:

- Expenditure patterns and growth (Tables 1.1, 1.2, 2.1, 2.2, 3.1, 3.2 and 3.3)
- Recipient counts and participation by eligible populations (Tables 4.1 and 4.2)
- Cost per recipient, per capita, and costs per unit of service (Tables 5.1, 5.2, 6.1 and 6.2)
- Administration and training costs (Tables 7.1 and 7.2)
- EPSDT (Tables 8.1, 8.2 and 8.3)
- Potential Fraud and Abuse monitoring (Tables 9.1, 9.2 and 9.3)
- Health Maintenance Organizations (Table 10.1)
- Effective Federal share (Table 11.1)

Sources of the Data

Data are drawn from reports submitted by the states, as required in Federal regulations. These reports are generally known by an identifying number and the division of the Social and Rehabilitation Service responsible for handling the reports. The required fiscal and statistical reports that contributed to these Management Reports are described below:

NCSS-120 - Monthly Statistical Report on Medical Care

The NCSS-120 is a monthly report which includes such data as the number of recipients by eligibility category, expenditures by type of service, and EPSDT information.

OA-41 - Statement of Medical Assistance Expenditures

The OA-41 is a quarterly report used by the Office of Financial Management to calculate grant awards and used for accounting purposes. Included on the OA-41 report are expenditure data for medical payments, administration, and training.

OFM-65 - Quarterly Estimate of Expenditures

The OFM-65 is a quarterly report also used by the Office of Financial Management for calculation of grant awards. It includes estimates of expenditures for medical payments, administration, and training for the succeeding quarter.

OA-25.5 - State Agency Program Expenditure Projection Report

The OA-25.5 is a report used by budget planners in MSA to provide Congress with estimates of Medicaid's costs for the current year and to provide HEW with estimates for the succeeding year. It includes projections of expenditures by type of service as well as unit costs by type of service.

NCSS-119.1 and 119.2 - Quarterly Report on Allegations and Investigations of Suspected Fraud under Title XIX

The NCSS-119.1 and 119.2 are two reports summarizing state activities, both administrative and law enforcement, in attempting to control potential fraud and abuse.

Several additional data sources are used to complement and provide references for the Medicaid data. These sources include: Census population estimates; AFDC and SSI recipient reports; and Consumer Price Index - Medical Care Component.

All of these data sources have been integrated into a single, on-line, computer data file from which these management reports were generated. The graphics are also computer generated directly from the integrated data base.

Data Presentation

Three techniques are used in these reports in an effort to make the data more useful for program management:

- Graphic summaries. Some key program

indicators have been selected for graphic display in trend charts, bar charts, or U.S. maps. These displays highlight gross program changes and differences among states.

- Rankings. The bar charts and many of the tables are ranked by a key indicator. This allows the reader to see easily and quickly where each state lies in relation to the others.

- Glossary. Terms used in this report are given nontechnical definitions to aid in the interpretation of the data.

Cautions

Cautious use of these data are encouraged for several reasons:

1. Medicaid is a state-operated program in which each state provides a different mix of covered services with different reimbursement policies for different target populations.

2. Much of these data are generated by the claims payment process in the states and, consequently, are affected by the lag between the actual provision of services and payment for these services.

3. With the exception of the OA-41 data, these data are not verified by the Federal government. Some states may use poor quality control procedures or submit estimates where actual figures are not available. This caution is especially important with respect to unit cost data.

4. National totals and averages include only available data. The states that have not reported completely or on time cause the resulting national data to be inaccurate.

Note: Expected Expenditures are derived by applying the rate of budget growth, for the nation, between FY 1975 and FY 1976 to each state's actual expenditures during the appropriate FY 1975 period. The rate of budget growth used was 17% as stated in the report entitled "Medical Assistance", a quarterly report submitted by SRS to the Congressional appropriations committees.

* Percent Change from Same Period Previous Year

For reference purposes, the Percent Change in the Medical Care Component of the Consumer Price Index from second quarter FY 1975 to second quarter FY 1976 was 9.8%

Source: Actual Expenditures, SRS-OA-41.9, SRS-OA-41.10; Number of Public Assistance Recipients, "Social Security Bulletin", Table M-33 and Table Q-21; Cost per Unit of Service, SRS-OA-25.5

Note: The Cost Per Unit of Service growth factor shown in this table is derived from data submitted by the states on the OA-25.5 Expenditure Projection Report. Utilization is derived from the other two growth factors and the percent change in actual expenditures. As noted in the Introduction, the reader should use caution in interpreting these unit cost data.

TABLE 2.1 ESTIMATED MEDICAID EXPENDITURES FROM THE OFM 65 REPORTS AND COMPARISONS TO ACTUAL EXPENDITURES, BY STATE: THROUGH SECOND AND THIRD QUARTERS, FY 1976

STATE	.....ESTIMATED EXPENDITURES..... THROUGH THIRD QUARTER		.....ACTUAL VERSUS ESTIMATED EXPENDITURES..... THROUGH SECOND QUARTER

Note: Two factors account for the difference between the figures shown on this table and those shown in Tables 1.1, 1.2, 2.1, and 2.2. First, this table does not include administration and training costs, while the others do. Second, the data used in this table are available through the statistical reporting system, which differs somewhat from accounting totals used in the other tables.

Note: Two factors account for the difference between the figures shown on this table and those shown in Tables 1.1, 1.2, 2.1, and 2.2. First, this table does not include administration and training costs, while the others do. Second, the data used in this table are available through the statistical reporting system, which differs somewhat from accounting totals used in the other tables.

GLOSSARY

Acquittals - Cases of suspected fraud not proved by legal authorities.

Actual Expenditures - Dollars paid by a state agency for medical services, administration, and training in that state under the Title XIX Program, as reported on the OA-41.9 and OA-41.10 reports.

Administrative Actions - Actions taken by the state agency with regard to cases of suspected fraud other than referral to a law enforcement agency.

Administrative Costs - The expenses incurred by a state agency in managing the Title XIX Program, excluding training costs.

AFDC Recipients - Adults and children who received financial assistance through a Federal program (Aid to Families with Dependent Children) for families with dependent children under 21 which have incomes below a specific level determined by each state.

Aged 65 and Over - Persons receiving medical services under the Title XIX Program who are eligible because they or their spouse are at least 65 years of age.

Annualized - A mathematical procedure where quarterly data are multiplied by four to give an estimate of the annual data.

Basis of Eligibility - The different economic and physical conditions which entitle persons to receive medical services under the Title XIX Program.

Blind - Persons classified by a state as blind who receive medical services under the Title XIX Program.

Clinic Services - Preventive, diagnostic, therapeutic, rehabilitative or palliative items or services provided to outpatients by, or under the direction of, physicians or dentists in a facility which is not part of a hospital, but which is organized and operated to provide such services to outpatients.

Convictions - Cases of suspected fraud proved by legal authorities.

Cost Per Unit of Service - An aggregated indicator derived from the weighted average of the projected costs for 13 medical services paid for by the Title XIX Program; the average is weighted by the percentage of total payment going to each service.

Days of Institutional Care - A derived indicator calculated by dividing the total medical payments by the projected average cost per day for a type of institutional care.

Dental Services - Diagnostic, preventive, or corrective procedures administered by, or under the supervision of, an individual

licensed to practice dentistry or dental surgery.

Diagnosis - The identification of a disease from its signs and symptoms.

Effective Federal Share - The percentage of the Title XIX total expenditures in a state which are Federal expenditures.

EPSDT - A federally-sponsored program (Early and Periodic Screening, Diagnosis and Treatment) which encourages the provision of early medical care to children under 21 who are eligible for medical services under the Title XIX Program.

Estimated Expenditures - A state agency's estimation of the dollars to be paid for medical services, administration, and training under the Title XIX Program, as reported on the OFM-65 Report.

Expenditures - See Actual Expenditures, Estimated Expenditures, Projected Expenditures, Total Expenditures.

Fraud Control - Administrative actions taken by Medicaid officials or legal actions taken by law enforcement officials to eliminate unlawful activities by providers participating in the Title XIX Program.

Fraud (Medicaid) - Intentional deception or misrepresentation by providers participating in the Title XIX Program.

General and TB Hospital - A facility that is maintained primarily for inpatient medical or surgical care of acute illness or injury, for obstetrics, and for the diagnosis and treatment of tuberculosis.

Growth Factors - Elements which can change expenditures for medical services paid for by the Title XIX Program, e.g., a change in the number of recipients.

Health Maintenance Organization (HMO) - An organized system of health care which participates in the Title XIX Program and which accepts the responsibility to provide, or otherwise assure, the delivery of an agreed-upon set of comprehensive health maintenance and treatment services for a voluntarily enrolled group of prepaid persons in a specific geographic area.

Home Health Services - Specified items or services furnished to a patient in his home, excluding a hospital or nursing home, on the recommendation of a physician.

Inpatient Hospital Services - Items furnished by a licensed or formally approved general, TB, or mental hospital, which are provided under the direction of physicians or dentists for the care and treatment of hospital inpatients, and which are paid for by the Title XIX Program to the hospital.

Institutional Services - Inpatient Hospital Services, Skilled Nursing Facility, and Intermediate Care Facility Services (see specific definitions).

Intermediate Care Facility (ICF) Services - Services provided by an institution furnishing, on a regular basis, health-related

care and services to individuals who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide, but who, because of their mental or physical condition, require care and services which can be made available to them only through institutional facilities.

Low Income Population - Persons in a state whose income is below the federally established poverty level.

Medicaid - see Title XIX.

Medicaid Recipients - Persons who are provided medical services under the Title XIX Program.

Medical Assistance Percentage - The legislated Federal share of medical payments which is established on an individual basis for each state according to the state's per capita income.

Medical Services - All services covered in each state by the Title XIX Program.

Member of a Family with Dependent Children Under 21 - Persons who are members of a family with dependent children and who receive medical services under the Title XIX Program.

Mental Hospital - A hospital that is primarily engaged in providing services for the diagnosis and treatment of mentally ill persons.

NCSS 119.1; NCSS 119.2 - NCSS 119.1 is the state's Quarterly Report on Allegations and Investigations of Suspected Fraud under Title XIX; NCSS 119.2 is the state's Medical Provider Schedule on an Allegation of Suspected Fraud under Title XIX.

NCSS 120 - NCSS 120 is the state agency's Monthly Statistical Report on Medical Care under the Title XIX Program. Part I provides information on the total amount of medical payments by form of payment and by type of service; Part II provides information on the number of recipients, by basis of eligibility and maintenance assistance status; Part III provides information on the number of individuals receiving EPSDT services and on the payments for such services.

OA 25.5 - OA 25.5 is the quarterly State Agency Program Expenditure Projection Report. Part V provides projections for Medical Assistance Payments, Administration Expenditures and Training Expenditures by the Title XIX Program.

OA 41.9; OA 41.10 - OA 41.9 is the state agency's Statement of Medical Assistance Expenditures for the Medical Assistance Program; OA 41.10 is the state agency's Statement of Expenditures for State and Local Administration and Training for the Medical Assistance Program.

OFM 65 - OFM 65 is the state's Quarterly Estimate of Expenditures; Section D provides estimates of expenditures for the Medical Assistance Program. The OFM 65 Report is used to determine the grant award for each state.

Other Medicaid Recipients - Persons who receive medical services under Title XIX but are not eligible for maintenance assistance and are not reported in the categories of aged 65 and over, blind, member of a family with dependent children under 21, or permanently and totally disabled.

Other Professional Services - Professional services not classified as physician, clinic, outpatient, or dental, including laboratory and radiological services, home health services, prescribed drugs, family planning services, other practitioners' services, and other care, as defined on the NCSS 120 Report.

Outpatient Services - Preventive, diagnostic, therapeutic, rehabilitative or palliative items or services furnished to outpatients by a hospital and by, or under the directions of, physicians or dentists.

Payments - Dollars paid by a state agency for medical services under the Title XIX Program, as reported on the NCSS 120 Report.

Per Capita - With respect to the total members of the specified population (i.e., either state or national population).

Permanently and Totally Disabled - Persons classified by a state as permanently and totally disabled who receive medical services under the Title XIX Program.

Physician Services - Services provided by, or under the personal supervision of, an individual licensed under state law to practice medicine or osteopathy.

President's Budget - The estimate of expenditures for the Title XIX Program, for a fiscal year, presented by the President to Congress.

Professional Services - Physician, clinic, outpatient, dental and other professional services (see specific definitions).

Projected Expenditures - Dollars projected to be paid by a state agency for medical services, administration, and training under the Title XIX Program, as reported on the OA 25.5 Report.

Public Assistance Recipients - Persons who receive financial assistance through either the AFDC or the SSI Program.

Recipient - An individual who receives financial assistance, either directly or indirectly, from AFDC, Medicaid or SSI.

Recoveries - Dollars recovered as a result of Title XIX fraud control activities.

Referrals - The action that is needed beyond screening to obtain either a definitive diagnosis and/or necessary treatment.

Screening - The use of quick, simple procedures that are carried out with large groups of people for distinguishing healthy persons from those who have a disease or abnormality and for identifying those in need of medical examination and/or treatment.

Skilled Nursing Facility (SNF) Services - Items and services furnished to inpatients of, and billed for by, a licensed or formally approved nursing facility that meets standards required under the Title XIX Program.

SSI Recipients - Persons who receive financial assistance through a Federal program (Supplemental Security Income) on the basis of their income and resources and who are classified as 65 and over, blind, or permanently and totally disabled.

Suspensions and Terminations - Administrative actions resulting from suspicion and/or proof of fraud by a provider which prohibits his/her participation in the Title XIX Program either permanently or for a specific time period.

Title XIX - The part of the Social Security Act which authorizes the Department of Health, Education and Welfare to make grants to states for medical assistance programs; also referred to as Medicaid.

Total Expenditures - see Actual Expenditures.

Training Costs - The costs incurred by a state agency in educating and training Title XIX staff persons.

Treatment - The medical services provided for a referrable condition under the EPSDT Program.

Utilization - A derived figure that reflects the units of medical service used by Medicaid recipients and the medical services covered by the state under the Title XIX Program.
